

64 April 1755.
A scale of Miles

Part of Lake Erie

The French are now coming from their Forts on Lake Erie & on the Creek, to Venango to build another Fort - And from thence they design to the Forks of Monongehela and to the Logg Town, and so to continue down the River building at the most convenient places in order to prevent our Settlements &c.
N.B. A little below Shanapins Town in the Fork is the place where we are going immediately to build a Fort as it commands the Ohio and Monongehela -
